Hero's Story: Cori Krezman

Ms. Kerezman has led her kitchen crew in such a positive way at Wellington Landings Middle School. Cori and her staff have created a Tik Tok page called the Lunch Lady Squad. They have been featured on NBC news for their mission to spread positivity on our campus. These ladies have increased our number of lunches provided each day because our students want to say hi to the amazing lunch lady crew. They help to promote our culture of positivity and kindness at Wellington Landings and have made me proud!

Cori manages and leads with her heart. She has created an environment of love and kindness in the lunch line that has extended to the entire school and beyond. Her staff in the cafeteria serve up meals but they serve them with a side of love that does more than feed the body it nourishes the soul. Cori jumped on to Tik Tok to highlight the personalities of her and her staff so they can connect on a platform where kids invest their time and energy. The results have not only transformed the cafeteria line behavior their story was picked up nationally and their smiles and positivity have extended coast to coast. Cori took a leap of faith that has paid off. Her lunch ladies are rock stars and the kids connect and love them so. Please take a moment to view their story here: <https://www.wptv.com/news/education/lunch-lady-squad-at-wellington-middle-school-goes-viral-on-tiktok-creates-meaningful-relationships-with-students>
